**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, line 3, please insert:

---CROSS REFERENCE TO RELATED APPLICATIONS

The present application is a division of U.S. Patent Application No. 10/046,264, filed January 16, 2002, now U.S. 6,624,335 B2.---

2. The following is an examiner's statement of reasons for allowance:

The prior art of record do not fairly suggest or disclose the instant polymer comprising the ether monomeric units (1-1) or (1-2) derived from an ether compound (1), as structurally expressed in claims 1, and 8, respectively. Specifically, the instant ether compound requires n to be integer from 3 to 6. The teaching of this critical limitation with respect to the function of the polymer in a resist composition and its utility in the process of forming resist pattern, is absent in the references of record. Accordingly, the instant invention as

defined by claims 1-8 is now patentable with respect to prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helen L. Pezzuto whose telephone number is (571) 272-1108. The examiner can normally be reached on 8 AM to 4 PM, Monday thru Friday.
